

“We are your PREMIER SUMMIT distributor of SICK products”

Barr-Thorp Electric is proud to be a flagship partner with **SICK Sensor Intelligence**, one of the world’s leading manufacturers of sensors, safety systems, machine vision and automatic identification products for industrial applications.

Designation as a **Premier Summit Distributor** for Sick products means Barr-Thorp Electric has invested in the personnel, training, and demonstration product to provide the technical expertise necessary to help customers solve even the most demanding applications. Solutions are developed using the full Sick product offering:

- inductive/capacitive/photoelectric sensors
- laser measurement scanners
- laser safety scanners
- safety light curtains
- barcode readers
- vision inspection systems
- safety controllers
- encoders
