

Weidmüller 

WOW!

Weidmuller on Wheels Interactive Application Van

Delivering the Right Application Solutions—

Understand how Weidmüller's products work together to deliver total connectivity.

- Demo every Weidmüller product portfolio
- Every panel presents product features and value benefits
- On-site Demonstration Rails and product literature for each product

Let's connect.

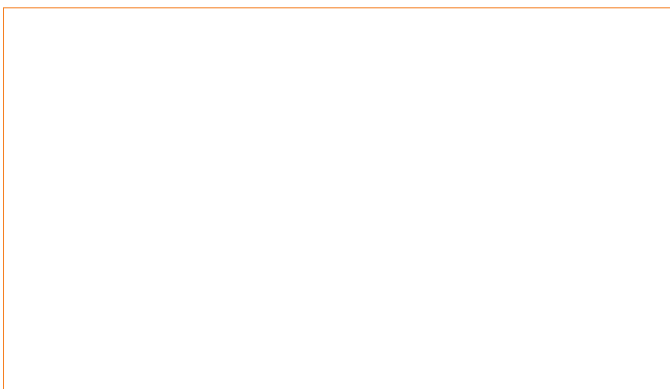

Right Where They're Needed.

Interactive and educational tools include:

- Industrial Automation panel
- Industrial Solutions panel
- Industrial Electronics panel
- Signal Connectivity panel
- Tools panel
- Operational PrintJet PRO printer
- Design software
- u-remote panel

Simple-to-use displays and demo product rails provide easy and informative application demonstrations.

The interactive u-remote demo allows you to view and manipulate digital and analog signals in real world simulations.

See the newest innovations from Marshalling Solutions to Wireless Connectivity to u-remote.

See, prep, strip, crimp and terminate wires using the newest tools that Weidmüller has to offer.

FREE LUNCH!
